

# City West Website Project

The City West Website project focuses on developing a website for the City West View resto-bar. It showcases services like food and room bookings, menus, and event schedules. Customers can place orders and make reservations online.

 by nishimwe Joseph

# Convenience for Customers

- 1 Easy Ordering**  
Customers can easily order food from home.
- 2 Room Bookings**  
Book rooms online with ease.
- 3 Event Schedules**  
Check event schedules conveniently.
- 4 User-Friendly**  
No technical skills needed to use the site.
